Please Note:

The final regular dual track meet of the 2019 season on April 25th will still be our traditional rivalry week with each high school's feeder schools competing against each other at their respective high school locations. Ideally, both schools in this meet should share co-hosting responsibilities to help alleviate the need for volunteers from a single school.

Based upon each school's 2019 estimated student-athlete participation:

The primary consideration in this model is an attempt to most effectively equalize the athletes competing at each sub-district location. With the estimated participation numbers that have been provided by each school, these match-ups provide the smallest difference between sites in the total number of athletes competing.
