

## School Choice Information:

Eugene School District 4J families may enroll their student in their neighborhood school at any time.

Please [click here](#) to find your neighborhood school.

---

Families may also request to have their child attend a different 4J school through the district's school choice transfer process, provided space is available at that school. The annual school choice transfer request period for 4J resident families is January 1–31 prior to fall enrollment.

Eugene School District 4J also welcomes families who live outside of the district to request a transfer to 4J schools. For more information and a list of 4J schools open to non-residents, please see the Out of District (Non-Resident) Transfer Information page. The annual interdistrict transfer request period for non-resident families is March 1–31 prior to fall enrollment.

Lotteries are held after each request period to determine the order in which transfer offers will be granted.

Post-lottery transfer requests from 4J resident and non-resident families are accepted beginning May 1 prior to fall enrollment and through mid-December. Post-lottery transfer requests will be offered available seats or placed on school waiting lists by priority and in the order they are received.
